A Cool Suggestion.

"Montserrat" Lime Fruit Juice is, without exception, the king of summer drinks. Cooling, fragrant and delightfully pleasant, it should be on every table during the hot weather, and is always to be had where summer drinks are sold. No other drink is so wholesome and refreshing.

It can be taken with plain or aerated water, claret and soda or spirits of any kind

If a Lime Juice Cordial is required "Lime-tta" will be found the finest article of its kind on the market.

THE SLATER SHOE

"It's Your Move"

Lay three dollars on a checker board. Put \$1.00 labeled "leather etc." to the right, the one labeled "labor" to the left, and \$1.25 marked "profit" as far away as possible—that's the average \$1.00 shoe. Now take \$1.00 from "profit" and add it to "leather etc.," with inc. to "labor." The state of the profit pile will then tell you why you should always look for the name and price on the sole. A Cool Suggestion.

"Montserrat" Lime Fruit Juice is, without exception, the king of summer drinks. Cooling, fragrant and delightfully pleasant, it should be on every table during the hot weather, and is always to be had where summer drinks are sold. No other drink is so wholesome and refreshing.

It can be taken with plain or aerated water, claret and soda or spirits of any kind.

If a Lime Juice Cordial is required "Lametta" will be found the finest article of its kind on the market.

Daily Intelligence.

BRITAIN'S NAVAL PROGRAMME.

Britain is evidently determined to "rule the waves" for some time to come, at all events. The annual report of the Admiralty in Great Britain's programme of building new warships is greater this year by \$2,000,000 than the estimate of any previous year and shows the purpose of England to continue to build up her navy and preparing for an emergency. There is little disposition on the part of the Admiralty to hold ships in reserve, and as fast as ready for service they will be commissioned and assigned to squadrons.

Four first-class battleships are shortly to join the fleet near Greece, and three others are to be assigned to the channel fleet. Two powerful ships are to be sent to Asia, and half a dozen more will replace smaller vessels on the North American and West Indian stations. The amount of money England will spend this year in increasing and supporting her fleet, the Admiralty is slightly more than \$115,000,000.

Great Britain proposes to lay down in the next few months four first-class battleships of about 14,000 tons, and three second-class cruisers, two sloops of war, four torpedo gunboats, and two torpedo destroyers. Besides this increase to the establishment, the Queen is to have a battleship, which will probably take the place of the Victoria and Albatross, the old side-wheeler used by Royal for years. The new yacht is to be laid down at Pembroke this year, and will be the most sumptuous vessel of its kind afloat.

The present programme of the Admiralty for the building of war vessels is one of the largest ever undertaken, and comprises more classes of ships than ever before. During this year and the early months of next year the will have completed, and in course of construction, fourteen first-class battleships, eight first-class cruisers, nine second-class cruisers, two sloops of war, four twin-screw gunboats, fifty-two torpedo boat destroyers, eight light cruisers, and twenty torpedo boats.

To man her warships Great Britain last year made appropriations for 93,750 men, including officers, seamen, boys, coast guards and royal marines, or an increase over the previous year of 4,000. The total number borne on the rolls last January, when a census was taken, shows 92,222 of all classes. While the numbers of men moving forward for most of the ratings have been most satisfactory, some difficulty has been experienced in obtaining the necessary number of engineers, artificers and artisans, owing to the revival of the shipbuilding trade. The Admiralty, owing to the vast increase in the number of available fighting ships in the next year or two, has asked that the total number of men be increased to 100,000, and this number will probably be allowed. The proposed additions are distributed among all branches and include 10,000 officers, 240 seamen, 205 engine-room artificers, 2,000 stokers, 1,500 marines and 514 artisans.

EXPORT DUTIES.

It is not probable that the Government will, at this late period of the session, abandon the "attitude of expectancy" which they announced with regard to the question of export duties; and, as the United States tariff has not yet been revised by Congress, they have in this fact some excuse for delaying action.

When the question is again taken up during the recess, as was promised on behalf of the Government, it is to be hoped that a decided policy will be adopted.

Mr. J. R. Ritchie, of Akron, Ohio, who is well-known to many of our readers in connection with the Central Ontario Railway and mining operations in that region, and who was a pioneer in nickel mining in this country, stated a few days ago that Canada possesses the only extensive nickel deposits in the world, outside of the French district. Such being the case, and as the United States are dependent upon Canada for nickel with which to manufacture nickel steel for the armor plating of their warships, and export duty on nickel matte, combined with similar duties on iron ore and pulp-wood, might fairly be expected to exercise a powerful influence on the legislators of the neighboring Republic in framing their tariff on certain Canadian products, such as lumber, wool, barley, hay and eggs.

NO DROPPING FOLLOWS the use of whisky. Light spirits, such as brandy, are less than three per cent of alcohol in the next year of men, and invalids and the aged are advised to abstain from alcohol, and that less than 60 grains of alcohol and over 120 grains of fruit, respectively, are not to be used.

He is kindly remembered by his old fellow employees.

On April 1st last Mr. Joseph Spry, for several years Chief Clerk of the Lower Division of the City of Toronto, was appointed Secretary to the Ball, Master Mechanic of the Northern Division, with headquarters at Lindsay.

Mr. Spry came to the city late in the evening and left early this morning after a brief stay. Yesterday was the only opportunity he had of seeing his friends and acquaintances before his departure.

He was accompanied by Mr. Geo. Teale, W. Maloch, W. Taylor, Tom Dubois, P. Acton, H. Gorman, H. Lewis, B. Mayo, J. Reed and A. Stewart; Firemen—George Collins, J. Fitzgerald, J. Gurney, J. E. McCarry, Shop hands—Mr. McDonald, R. Ivers, Cottrell, R. Spry and John McLevy.

On behalf of the drivers, firemen and shopmen, Mr. Geo. Teale read a neatly worded address and presented Mr. Spry with a beautiful gold watch chain with handsome lock attached. All present spoke of the happy occasion and the pleasure they had in seeing him.

Mr. Spry, in his reply, thanked his fellow workers most warmly for their beautiful present, and most particularly for their many kind expressions.

Marine Notes.

The ship, Anne Falconer, arrived in the harbor this morning with a load of Scotch sheep wool for the Steamer.

The beautiful day, the beautiful scenery and the comfort enjoyed by those who took advantage of the Marit's excursion to Napawan on Saturday, has won for that boat the enthusiastic praise of all present.

She arrived at her dock at 9:40 p.m.

THE SENATE ADDRESS TO THE QUEEN.

Mr. Mackenzie Bowden's Speech.

We have in a former number given the text of the address to the Queen on the occasion of her visit to the Dominion. The following is the full text of what Mr. Mackenzie Bowden said, which we clip from the official report of the Senate debate:

Hon. Sir Mackenzie Bowden.—I am glad to have the honor to address to Her Majesty, I, in common with the Members of the Senate, have been privileged to live through the full period of the Queen's reign, and therefore, have been a witness of all the memorable events we now desire to commemorate, and to which the Senate has the honor to address itself this afternoon.

In the nature of things we must commemorate the life of the Queen, and the life of the Empire, and the life of the Dominion. It is the duty of the Senate to commemorate the life of the Queen, and the life of the Empire, and the life of the Dominion. It is the duty of the Senate to commemorate the life of the Queen, and the life of the Empire, and the life of the Dominion.

A PRESBYTERIAN CLERGYMAN Takes up a Popular Subject.

He Writes About Paine's Celery Compound.

STRONGLY RECOMMENDS IT.

Like scores of other clergymen who have been made hearty, vigorous and strong by the use of Paine's Celery Compound, the Rev. Mr. [Name] of [Location] is a strong advocate of this medicine. He writes that he has used it for many years, and that it has done him much good. He also writes that he has recommended it to many of his parishioners, and that they have all benefited from its use.

A FAMOUS BAKERY.

How the Hollanders Became Cake-Makers for the World.

In one of the old buildings which bear the name of the Hollanders, in the city of [Location], there is a bakery which is famous for its cakes. The bakery was founded by a Dutchman, and it has since that time been a famous bakery. The cakes which are made here are of a special kind, and they are very popular in the city.

WHEEL-PEOPLE'S NOTES.

A number of European bicyclists recently concluded that it was high time for lovers of the wheel to elect a patron saint, and so they straightway began to search for one. Difficult was their task, for though the number of saints is by no means limited, it was not easy to find one who could reasonably be supposed to take a lively interest in the spiritual welfare of wheelmen.

A "LIVE LORD."

A Belleville Working Man's Good Luck.

He Falls Heir to a Title of Nobility and a Great Landed Estate in Scotland - His Story, as Told to the Intelligencer.

Mr. Alexander Fraser, of thirty, states that he has received word from Mr. John Shaw, Dean of the Law Faculty of Edinburgh, Scotland, that by the death of Simon Fraser (Lord Lovat), an informant, being the next of kin - namely grand-nephew of deceased, who was about ninety years of age - succeeds to the title and to the estates.

The estates, which are situated in the county of Inverness and in the Isle of Skye, produce a rental of some £24,000 per year.

Mr. Fraser, who is 40 years of age, lived in Morayshire, Scotland, where he owned the trade of a mason, and came to the city fourteen years since. He had worked at his trade in various places in Canada and the United States and settled here four years ago. He speaks English, French, and Gaelic, and is a native of Scotland, there to take up his residence in his ancestral hall.

The new Lord Lovat is well known and has many friends here. He is full of reminiscences of his father, Lord Lovat, who was a Duke of Fife and other eminent Scotsmen.

AROUND THE WORLD.

The "Recorder" Interviews

Mr. G. T. Fulford

The His Return After a Seven Months' Absence

Combined—An Interesting Chat

Mr. and Mrs. G. T. Fulford arrived

home on Saturday after a seven months'

tour around the world. Shortly after

their arrival, Mr. Fulford, who has been

little travel was, was seen by a Recorder

reporter and put through a catch-up as

to the events of his trip.

"I understand that it was chiefly for

pleasure that you made your globe-

circling trip, Mr. Fulford, said the re-

porter.

"Well, I arranged to get considerable

pleasure out of the trip, but it was, after

all, undertaken mainly for business pur-

poses. You understand that when a man

makes business in these days he has to go

out and hustle for it. The old saw that

'all things come to him who waits,' is no

longer true. The fellow who waits in these

days is the man who brings up away in the

rear of the business procession. And that

is the true of the individual is also true

of the nation. Speaking of this let me say

that I am glad to know that the Govern-

ment of Ottawa is alive to this and is send-

ing out agents with a view to increasing

Canada's trade. Speaking from my ex-

perience as an individual, I would say

without hesitation that the move is in the

right direction, and will prove of de-

cided advantage to the country."

"You speak so emphatically that I sup-

pose it is because you have the inside

of your business," said the reporter.

"I suppose I may say so," replied Mr.

Fulford. "I have every reason to be

satisfied with the record Pink Pills have

made in the world. Last year they sold

500,000 packages the output for 1896, and

for the first three months of the present

year we exceed the corresponding year of

1896 half a million packages, and Pink

Pills have today a larger sale than any

other pill in the world."

"I suppose this result is a tribute to

good advertising," queried the reporter.

"To be sure advertising has a great

deal to do with it, but there are many

mistaken notions as to the mission of an

advertisement. It procures you a cus-

tomer, but not a buyer. It is the duty

of that customer to buy a second of

the goods he has bought. Pink Pills for

Leucorrhoea, for example, is a medicine

the virtues of which we claim for it. Your

article must have merit, and your adver-

tising must be always true. When these

important factors in the sale of our

medicine is the recommendation those who

know and use it give their endorsement.

These recommendations are made because

the medicine have found it just what

we claim for it."

"I suppose Pink Pills pretty well gain

the name now," said the scribbler.

"Yes, like the British flag, the sun

never sets on Pink Pills. On my recent

trip started business in Egypt, Syria,

Algeria, Palestine, Ceylon and the Hawaiian

The track at Agricultural Park is now in
good shape for training and club members
may use it. Those who have not secured
membership tickets should do so at once,
as they will not be permitted to use the
track until they do.

The track has never been in better shape
than at present. The lower turns have
been well treated and the surface made as
smooth as it possibly can be.

The races on Jubilee Day will prove the
most interesting part of the afternoon pro-

CHILDREN'S JUBILEE.

The Programme Managed for the Committee from the Board of Education.

The Committee appointed by the Board of Education to draft a programme for Jubilee Day met last evening in the police court room.

It was first decided to present much teacher and pupil with a souvenir medal, a sample of which was approved by the Committee. The medal is thus technically described:

Obverse—In the centre in relief a group of children, a boy and a girl, holding hands. A sprig of laurel and the words "Jubilee 1897 and 1897." At the top appears the word "Victoria." At the bottom a motto scroll, on which is engraved a motto from which—"United we stand, divided we fall." At the bottom, a group of children, a boy and a girl, holding hands.

Reverse—Engraved around a central panel, bearing "Canada," the words "Canada, Canada, Canada," and the words "United we stand, divided we fall." At the bottom, a group of children, a boy and a girl, holding hands.

The Chairman of the Public School Board and the Separate School Board will be the presiding officers at the exercises on Jubilee Day. Fifteen minute speeches will be delivered by Mayor Johnson and Sir Mackenzie Bowell.

Invitations will only be sent to the members of the Boards, Mr. Robert Mathew and members of Parliament for the occasion.

The children will assemble at the various schools at 9 o'clock in the morning, where the medals will be distributed and a flag given to each school. The schools will then converge at Brown's foundry, where they will form in the following order of procession:

Station School, Canfield Road School, Grant School, Ontario St. School, Pinnacle St. School, St. John's School, St. George's School, High School, E. O. School, of the Boards, Members of Boards, Chairmen.

Each school will be led by their best teacher bearing a large flag. The route of procession will be down the east side of Front st. to the sidewalk to Bridge st. thence to Church st. and to the Central School ground, where besides the address, the children will sing four patriotic songs.

Cool Clothing.
The proper place to put your cool clothing is where you can get a nice assortment to select from. The Oak Hall has two thousand dollars invested in summer clothing which will give you an idea of the quality and value of the goods. All styles and all sizes. See our crash bicycle suits at \$4.

THE SUN NUMBER UP.
A deed of the lot recently purchased by the Council from the Archdeacon of the Diocese of the West was laid on the table. Ald. Doyle said the Sun had, in a recent issue, made a great noise over the purchase of the lot for the Jubilee, but he said that the lot was not for the Jubilee, but for the Sun. He said that the lot was not for the Jubilee, but for the Sun. He said that the lot was not for the Jubilee, but for the Sun.

Major Johnson said he was not afraid of newspaper criticism, in fact he had thriven upon it. He thought it the duty of a number of the press to do this, but anything of which he did not approve to bring it to the notice of the Council and send it to the printer's trash.

He explained fully the whole transaction in connection with the purchase of the lot, and had been on the City Solicitor's advice.

The letter of Wm. Lockhart was read and reported. Report received and adopted.

THE C. O. F. GRAND LODGE.

The Opening of Business This Morning.

Presentations of Credentials—Reports of the D.D.G.M.—A List of Delegates—The Grand Master's Address—Welcome by the Mayor.

The annual meeting of the Grand Lodge of the Canadian Order of Oddfellows opened in the City Hall at ten o'clock this morning, with about one hundred representatives present. Grand Master Wardell occupied the chair and Deputy Grand Master Robt. Clark occupied the vice chair. The Lodge was opened in due form, Grand Chaplain J. F. offering prayer.

The first business was the presentation of credentials by the delegates, after which a committee of seven was appointed to strike the standing committee. The rest of the morning session was given to the report of District Deputy Grand Masters, which were very favorable on the whole.

UPON RECEIVING OF THE REPORTS OF THE D.D.G.M.'S.
Upon receiving after dinner several other D.D.G.M.'s presented their reports, after which the Grand Master delivered his address.

The Grand Master's was somewhat lengthy and dealt minutely with all matters affecting the lodge, and was well received. He was one of peace and harmony, and a satisfactory record of membership. The insurance fund had been drawn on only once owing to accidental deaths and deaths from suicide, but the order he had stood the strain on to each lodge, and he had not a credit of this fund. The Executive Grand Officers considered it was, however, that better proof of death should be given than formerly. The D.D.G.M.'s have more done their duty well, but some districts have complained most justly of the delay in a step in the right direction. During his visit to different lodges he had noticed a great dissimilarity in the working of the lodge, this he had corrected.

Fellows of Shakespeare.
The executor of the late Charles Clement Walker, Shakespeare, England, have sent to the Mechanic Institute a copy of Mr. Walker's biographical sketch of John Hemmings and Henry Condon, friends and fellow actors of Shakespeare, who several years after the death of "the immortal bard" collected and published, in 1823, his drama "according to the true original copies." Mr. Walker created a beautiful monument to those worthies and his book is a line tribute to the memory of men whose lives to English literature was of vast importance.

Fell into the Water.
While two women were fishing near Holton's saw-mill last night one of them fell into the water and was nearly drowned. A carter named Baker, happening to be near, rescued her when she was well-nigh exhausted.

The Bicycle Bill.

At the evening session of the Senate yesterday the adoption of the Railway Committee's report killing the Bicycle Bill was moved by Senator McCallum.

Senator Leacock made a strong effort to have the bill re-nested on the order paper. He went over the arguments in favor of the bill, and concluded by moving that the report be not adopted, but that the house go into Committee of the Whole on the bill.

Mr. Mackenzie Bowell said those who voted against the bill were opposed to the principle, but not to all proper concessions being given bicyclists. They voted for delay until next session, in the hope that in the meantime the railway companies and bicycle people would come to some understanding which would do away with the necessity for legislation.

If the matter had not been brought before next session, those who now opposed the bill being re-nested on the order paper would undertake to have the bill introduced and passed, giving bicyclists even better terms than the present bill proposed to give them. He urged withdrawal of the amendment.

Senator McCallum having spoken against the bill, Senator Leacock withdrew the amendment and the report was adopted.

Setting up a Record.

An announcement in yesterday's issue reports that the late John Gorman had set up a new record for the 100 mile race from town to Kingston. They started at 6:30 and were just twenty minutes getting to Cobourg. Between Cobourg and Brighton they encountered some bad roads and five miles west of the latter place a storm blew up and became entangled in the front chain, breaking it. Gorman had to pedal into Brighton, where nearly an hour was lost in repairing the machine.

CLOSING SCENES.

The Labor of the C.O.O.F. Grand Lodge ended—A Pleasant Gathering.

The Grand Lodge of the C.O.O.F. closed at precisely four o'clock yesterday afternoon and most of the representatives got away for home last evening. A few remained over till today, notably Past Grand Master Quinn, the Grand Secretary and the Grand Treasurer. Following was the business transacted yesterday afternoon.

On resuming the afternoon the Executive were instructed to purchase and present to Past Grand Master Quinn a Past Grand Master's Jewel.

The Committee on Finance presented their report, giving an estimate of the expenditure for the coming year. The per capita tax was made \$1. The estimated expenditure for the general running of the Order is \$7,000, and the probable receipts \$10,000. The report was adopted.

The newly elected officers were installed by Past Grand Master Quinn.

The session closed with prayer, the singing of the National Anthem and Add Long, Rye, and cheers for the Grand Officers and the Queen.

One of the most pleasant features of the Grand Lodge was the decision by acclamation of all the Grand Officers, which shows they have the confidence of their brethren.

The representative spent a delightful time in Belleville and they were more than pleased with the hospitality extended to them.

NOW THE DAY IS OVER

And There Was No Mishap to Mar the Occasion.

The Queen Passed through the Order Without Fatigue, and One of the Greatest Days in the World's History Passed Her Majesty. The Queen in St. Paul's Cathedral, Canada West, brought to the front in a special Way--Every body cheered and said "God Save the Queen!"

London, June 22. Her Majesty's morning that it is to be wed at all, with the firm conviction that the most splendid day in English history has dawned. It is the day when the great of English sovereigns came to his own words, to "see her person," and their congratulations. Right well, it is generally only enough for the Londoner, but today the hour of 5 o'clock, when the Queen arrived at 10 and even 20 miles around London.

It is 5 o'clock the stream had been in flood, and the noise of the procession was well liked, though by no means deafening. The Queen, who had been in the line, was just starting in the gentle breeze, and the hunting and the gardens of the nation were in the air. The Queen's carriage, in every instance, was a white carriage, with red wheels and blue seats. The Queen's carriage, in every instance, was a white carriage, with red wheels and blue seats.

Some of the flowers, which were in the Queen's carriage, were in the Queen's carriage. The Queen's carriage, in every instance, was a white carriage, with red wheels and blue seats. The Queen's carriage, in every instance, was a white carriage, with red wheels and blue seats.

Every window, every roof, every church steeple has its occupants and its eyes are as good as looking at a crowd.

The police and the rest of the world's history passed her Majesty. The Queen in St. Paul's Cathedral, Canada West, brought to the front in a special Way--Every body cheered and said "God Save the Queen!"

Some of the flowers, which were in the Queen's carriage, were in the Queen's carriage. The Queen's carriage, in every instance, was a white carriage, with red wheels and blue seats. The Queen's carriage, in every instance, was a white carriage, with red wheels and blue seats.

IN EARLY EVENING.

Generally dressed in black, as they are in the Queen's carriage.

DRESS REHEARSAL

Mothers! If you wish to keep your boys neat and tidy, you must buy them

clothes that will stand the strain. We don't claim to buy our clothing from "hard up" houses that

are in need of money and "must sell." They're not job lots--and you ought to be thankful for

that. The maker who made them was not pressed for cash--if he was the suits would most likely have been stingily made. But they are the big

generous product of plenty of capital; plenty of experience; plenty of expertness. They're worth

what we sell them for, and worth two to one of suits that are marked the same elsewhere. They're

here.

\$1000 A WEEK

That is What the Deteriorating is Yielding in

Gold-Six a Ton in Arsenic.

We have in what is believed to be

absolutely reliable authority, that the

Canadian Gold Fields are clearing up

\$2000 every fortnight at their reduction

works from the Deloro mine, despite the

fact that they are running at one-half, or

little more, of their capacity. The Com-

pany have some twenty men at work.

This, combined with the fact that the

Company are taking up their options by

the end of the month, will result in a

double as to the quantities of the North

Hastings mines and the success of the

home-yankee project in extracting the

gold from arsenical (arsenopyrite) ore.

It is estimated that there is a

yield of \$25 per ton in arsenic from the

mine, besides the gold.

MINING NOTES.

(Marmora Herald)

A sample of gold bearing quartz taken

from a property in Belmont township be-

tween the 3rd and 4th concessions was

sent to our office on Saturday by Mr. Geo. Ellis.

The sample is the best we have yet seen.

Mr. Theo. Warren, returned from

Dungannon township on Friday. With a

staff of men he opened up a number of

veins on the McLean property and brought

home some excellent samples. Among

them were: ardenite, amber mine,

cupret of silver ore, gold bearing quartz

and black mine. The black mine sample

weighed 100 pounds when taken out at a

depth of four feet. A vein that runs

from the mine vein carries a peculiar

looking rock of a purple and white color,

and is very hard. We have ever seen

Several pits have been sunk in the

four feet and mining men will now find

an easy means to inspect the mine.

THE BACCALAUREATE SERMON.

An Able and Eloquent Address to Albert College Students.

Rev. W. P. Ferguson, D.D., a Graduate of Albert College, addressed the students of Albert College on Saturday evening.

Yesterday morning the students of Albert College marched in a body to the Town Hall to hear the annual baccalaureate sermon.

The new individuals were for the first time their "order" leaders and gowns. The preacher was Rev. Dr. Ferguson, son of Rev. John Ferguson, of this city.

Principal of the Centenary College, in Hagerstown, Md. He graduated from Albert University in 1881 after the most brilliant course, taking the gold medal in physics.

Dr. Ferguson chose as his text, Joshua, 1:1-9. "This book of the law shall not depart out of thy mouth; but thou shalt meditate thereon day and night, that thou mayest prosper to do according to all that is written therein; for then thou shalt have good success, and thou shalt have good success."

"Have not I commanded thee? Be strong and of good courage; be not afraid, neither shalt thou tremble; for the Lord God is with thee whithersoever thou goest."

His subject was "Success." Every man, he said, was striving to succeed in one way or another, but our lives are nothing unless we have a purpose. Happiness in life was quite essential, but there should be exercised great care in the selection of pleasures.

Young people are being seduced and debauched on every hand by popular pleasures. Self-development was a helpful aid to success, but the misapprehension was service. Service is the true purpose of life. God will help the man who helps others. God loves to bend down to men, and He is greatest where He bends down to men helpfully.

When a man looks about him and sees what there is to do, there seems nothing but service. If you would achieve Christ's success you must be hardy-hearted. Seek physical exercise to secure strength of body, that you may carry other burdens.

Intellectual strength. Seek also self-development for the sake of service. Have good courage, but don't strive towards vain honors. Be diligent, honest and thorough and you will be successful. In conclusion he asked his audience to observe the three cardinal virtues, which included all others, namely, faith, love and hope. Faith would promote vision; love would lighten labor, and hope would give patience.

During the service the choir rendered two splendid anthems in good time.

Sumner Coats and Vests.

J. F. Harry has just received a stock of gentle summer coats and vests in black and other colors. Coats or vests sold separately if desired, ranging in price from 75c up to also at 50c and 50c. PETERBOROUGH BAPTISTS.

The delegates beginning to arrive. The Opening Meeting This Evening.

The Peterborough Baptist Association, which comprises all the Baptist churches and their organizations in this district, will begin its annual meeting in the Baptist church this evening.

Over one hundred delegates, of whom several have already arrived, will be in attendance. Mr. McFadden, of Toronto, president of the Home Missions, is here and will be one of the speakers at this evening's meeting.

Mr. Scott, of Picton, is also in the city to attend the Association meeting.

Services will be held morning, afternoon and evening on Tuesday and Wednesday, and promise to be full of interest. The congregation of the Baptist church, together with the pastor, Rev. V. H. Conner, are making every preparation for the reception of delegates.

Arthur Blackburn's Funeral.

The remains of the late Arthur Blackburn arrived from Cleveland, O., on Saturday evening and were taken to his father's residence on Morris st. Many friends of the deceased called yesterday to pay a tribute of respect to one who they highly esteemed in life. Many persons brought floral offerings, with which the casket was covered. The funeral took place at 2:30 this afternoon and the attendance was large. Rev. C. F. McIntyre conducted the services. Mr. E. F. O'Brien's Bible class, of which deceased was a member, attended in a body. The bearers were Messrs. J. A. McFadden, Chas. Schuster, W. Deane, H. B. Bortolier, A. Frederick and J. McCarthy.

Flower Sunday.

Yesterday was Flower Sunday in Hallowell, and all the children took bouquets of flowers and deposited them with the teachers, who arranged them and tied them to each. They were afterwards taken to the hospital and to a number of sick people of the neighborhood.

Rev. Dr. Cole and Mr. W. J. Magrath addressed the children and the primary classes, making altogether a very profitable service.

A CELEBRATED CASE.

The decision of Judge Robinson and

Ferguson at Toronto, confirming Major

Thomas Bantlin in his suit as M.P. for

the city of London, was the final act in

one of the most celebrated election trials in

Canadian annals.

It will be within the recollection of

many of our readers that in the general

election last year Major Thomas Bantlin,

the Conservative candidate for the city of

London, succeeded in defeating Sir John

Byrnes, a very popular Liberal, who had

contested several elections in the Forest

City, by a substantial majority. At once

the usual howl was raised by the Liberals

that their candidate had been defeated by

"fraud" and "corruption," and a protest

was entered by them, which was accompanied

by the confident prediction of their organs

that within a few weeks Mr. Byrnes would

be the member for London. The result of

these feelings and belongings we have

already seen.

The history of the case was thus given

in the London Free Press of the 7th inst.,

premising that the judgment which was given

by the judges on the 11th inst.

The judgment in the London election case

on Saturday covered every point but one,

that of the alleged bribery of the voters

of the city of London, which was reserved

for the judgment of the judges on the 11th

inst. The bill of particulars, which was

presented to the judges on the 11th inst.,

was a long and elaborate document, and

contained many charges, of which the

most important were the following:—

1. That the defendant had bribed the

voters of the city of London with money

and other valuable considerations.

2. That the defendant had bribed the

voters of the city of London with money

and other valuable considerations.

3. That the defendant had bribed the

voters of the city of London with money

and other valuable considerations.

4. That the defendant had bribed the

voters of the city of London with money

and other valuable considerations.

5. That the defendant had bribed the

voters of the city of London with money

and other valuable considerations.

6. That the defendant had bribed the

voters of the city of London with money

and other valuable considerations.

7. That the defendant had bribed the

voters of the city of London with money

and other valuable considerations.

8. That the defendant had bribed the

voters of the city of London with money

and other valuable considerations.

9. That the defendant had bribed the

voters of the city of London with money

Canadian girls are no longer acceptable

to the American people. A turn in one

of the hospitals has been given their

walking stick, and told to leave the country.

What a gallant people we were upon

the battlefield.

A Canadian.

Mr. John Smith.

The Halifax Chronicle is trying to under-

stand why the "Globe" should have been

a duty of five cents on it. Perhaps the

Chronicle would have better answer if it

told us to leave the country.
